Washington, DC 20520

RE: The threat to American security (past, present and future) incurred by supporting the unlawful so-called “state of Israel.”

Sec. Rubio,

I have enclosed a short book titled *Truth Threatens the “State of Israel”* which proves the said state has no right to exist or defend itself based upon the sole justification for the “homeland of the Jews” asserted by its founders and advocates. I would think your first impression would be to disregard this information as non-threatening and a waste of your time and the agency’s time needed to secure the safety of the United States of America.

However, it is said often by those in office, including President Trump, that we have an “unbreakable bond” with the “state of Israel” and the Middle East is a “dangerous place.” Hence, it is perceived that the enemies of the said state are also the enemies of the USA. But if the sole basis of the “State of Israel” is shown to be erroneous then we have attached ourselves and our nation to an unlawful state which has and will draw us into conflicts with nations and people innocent of charges against them. This condition can cast suspicion on innocent citizens and university students in our land who are presumed to be enemies of the USA and cause dismissal of those who are indeed a threat to our land or have already overthrown the union and states thereof.

In your proposed joint agency use of artificial intelligence to revoke visas of “Hamass sympathizers” it must not select those who have discovered that the antichrist so-called “state of Israel” is not a lawful state either by the principles of property upon which our nation was formed or by Biblical promise or revelation.

The sole justification of the “State of Israel” is that the “Jewish” people are the heirs of Abraham to the “promised land” in the Middle East, a small portion of which the said “state” now occupies. My book proves with New Testament scripture that this assertion is completely false. And since our nation is mostly made up of Christians rather than Synagogans, we should be following our own New Testament revelation from God rather than the Synagogan misunderstanding of God’s will, as asserted by Christ Jesus, the Son of God.

I voted for President Trump all three times and he is correct on all his platforms except his blind support of the antichrist state of Israel. It should not be construed from my position that I am a supporter of any so-called “terror group” or that I am anti-American. My forefather’s created and defended this nation and with this letter I am attempting to do the same.

Sincerely,

Ronald F. Avery
